

INRMP Preparers

Gene Stout and Associates has prepared various National Environmental Policy Act and natural/cultural resources planning documents for over 180 military installations in the United States.

Gene Stout - Owner and principle author of INRMP - Mr. Stout has Bachelor of Science and Master of Science degrees in Zoology with an emphasis on wildlife biology. Mr. Stout has 36 years of experience with Department of Defense environmental programs and was responsible for natural resources management and NEPA compliance at Fort Sill, Oklahoma for 18 years.

Geomorph Information Systems, LLC provided geographic information system support for preparation of the MCAS Miramar INRMP. The company has worked primarily with Navy and Marine Corps clients in Southern California, providing GIS support from the single-user to the enterprise level.

Eileen Goff - Manager - Ms. Goff has a Masters degree in Geography and has concentrated on the application of GIS tools in support of natural and cultural resources planning, analysis, and compliance. Since 1991 she has worked with all aspects of GIS planning, support, and implementation, with an emphasis on environmental planning and management applications. Ms. Goff was previously employed as the GIS Specialist in Environmental Management at MCAS Miramar.

Natural Resources Division, MCAS Miramar personnel are listed in the reviewers of the Station INRMP in the *Agency and Public Review and Comments* section of the INRMP. However, much of the original work was accomplished by the Division Director and staff. Division staff was particularly involved in the creation of appendices B (Plants) and C (Animals), photographs, and most INRMP tables and provided GIS databases for most maps. Natural Resources Division detailed reviews of various drafts of the INRMP were the basis for most improvements over the preliminary draft.
